

Missing in action
Nothing to do
I spend all my time thinking
Why do I do this
Forget the scar on her face
And finish the week
Like you normally do

You're missing in action
My meters running out
Now it's love love love love, love, love from here on out
I'm thinking of a number
And I'm counting on you getting in right
You're missing in action tonight

Middle 8

Sometimes I wonder if there's something there
Has there ever been
Will you call my name again?
And baby baby when the queue is long
Like it is today
Will the waiting ever end

Missing in action
What did you say
Did I hear my name
While the busboy was singing
Jet
The roar through my ears
Is making me feel
A little bit dizzy

Missing in action
What's it all about
Now it's love love love love, love, love from here on out
I'm thinking of a number
And I'm counting on you getting in right
You're missing in action tonight
